Vol. XXXIX

HE WANTS TO TRY IT AGAIN

C. W. Love Candidate For Jailer Appeals To The Democrats In The Primary.

I have decided to enter the race for the Democratic nomination for Jailer and I take this method of announcing myself as a candidate.

I want to thank my many friends for loyal support given me in my former race and if you think me still worthy of your confidence I will very greatly appreciate it.

I have been too busy with my farm work to make a canvass of the County and must therefore depend entirely on my friends in various parts of the County.

I will say if you will again honor me with nomination I will make active canvass and do all in my power consistent with honor to win election in November.

Again thinking you for past favors and earnestly requesting you to go to the polls on August 4th., and remember me.

I am yours very truly,
C. W. Love.

Letter From a Marion Boy.

"Wilbur Boston, son of City Marshall Geo. E. Boston, writes his father a letter as follows from Fort Warren, Mass., July 18, '17 Dear Dad:-

Just a line to let you hear the big noise. I leave Thursday for Fort Adams, R. I., and from there I sail to Liverpool, England. I am going with the 6th regiment coast artillery expeditionary force, and I am a full fledged wireless operator and as soon as my foot touches foreign soil I am a Radio Sergeant, some authority believe me.

Well Dad my leaving is official this time and I am glad, for I am anxious to hear the big noise. Papa I may have a streak of yellow when I get under heavy fire, but I believe it. I got it doped out this way, if they get me—they will—that's all, and what greater honor could one have, than to give up life for democracy. They are not going to get us all and I feel like one of the lucky ones. It is going to be dreadfully cold over there next winter, and I hope the war is over in time for me to spend Xmas with the home folks. My girlie is going to N. Y., with me to bid me farewell, and believe me Mr. Boston you should just see your future daughter-in-law, the original dream girl is nothing in comparison to her. She tried the Red Cross nurses, but she is too small. She wants to go along and take care of me. Well papa you won't hear from me in over a month now so don't feel alarmed. I will write you just as soon as I land and kill a sour kraut destroyer."

John Christian Spees.

Purveyor of pies to the sovereign people, of Marion and Crittenden county. Last week he made and sold 234 pies, week before 196 and week before that 165, which proves how his pie sales are growing. Some were mince, some lemon, some peach and some green apple. Why worry over a hot stove. Let Spees do it. Try his pie once and be happy forever afterward Chandler's restaurant, Phone 17

ASKS SUPPORT OF VOTERS

R. H. Thomas Candidate For Sheriff Appeals To The Republicans In Primary.

After being solicited by a number of friends to enter the race for sheriff of Crittenden County. I decided to do so, and am making every honorable effort I can to secure the nomination, and if nominated and elected promise a faithful, and impartial discharge of the duties of the office, and to do all in my power to enforce the law, put down crime and improve the religious and moral interest of the people, and a square deal in every way, and if the republicans of Crittenden County think me a man of stability and firmness, and worthy of your support I will greatly appreciate your help. I say to the republicans of Crittenden County go to the primary on Aug. 4, and vote for the man for each office you think suited for the place, and I will cheerfully submit to your decision, and will ever remember you with gratitude for what you have done for me in the past, whether I am nominated or not, and will support my party's nominees and lend all my influence to win success for them in November.

Yours truly,
R. H. Thomas.

Cultivate Your Newspaper.

Set aside a certain time each week to visit the publisher advertising manager or editor of the newspaper in your town.

Cultivate his friendship. Give him information about the comings and goings of your business, your family and your friends.

Tell him of the prominent people who have visited you in the past week or month or whom you have visited.

Let him know about the unusual record Tom Jones or Jim Brown made the other day in garden truck or farm or dairy products.

Your home or place of business either is the source of many interesting news stories which you can write up.

Visit your newspaper, and hand in those stories at the same time.

Your publisher wants real news and will be glad to extend this co-operation to you in letting absent friends know of the doings in your community.

Good publicity increases the value of your farm, home and town.

A Pleasant Trip to

Mammoth Cave.

Mr. and Mrs. T. A. Eno and daughter, Miss Dolie; Ed Simpson, wife and son, Howard; Rev. Marion Condit and sisters, Misses Grace and Lettie Condit; Doyle Vaughn, Miss Daddie Duval and Walter Clogharn, composed a dozen happy travelers who made the trip by rail last week to the Mammoth Cave. They returned home Saturday and reported a jolly good time. They took both routes in the great cavern and only one member of the party experienced any inconvenience when "fat man's misery" was reached and we leave our readers to guess who that was.

VOTE FOR EDWARD D. STONE FOR COUNTY ATTORNEY

Having served the people for two terms in the law making department of Kentucky, I feel that it absolutely equips and qualifies me for the duties of the office of County Attorney. A man who has been elected and endorsed by the people of this district to make laws by which they are to be governed, evidently is equipped and qualified to explain such laws in the courts of this Commonwealth.

I regret very much to say that I cannot make a very close canvass of the county at this time. I cannot do this for two reasons: First, because I am very busy on the farm, making and taking care of farm products; Second, because I was assured by the people generally that I would have no opposition, but on the eleventh hour a second petition for the office of County Attorney was filed in the Republican Primary.

For the past few years this county has been plunging into debt several hundred dollars annually. This indebtedness will have to be paid by the taxpayers of Crittenden County. This county should not be heavily in debt. The County Attorney should properly discharge his duty concerning the County's appropriations and expenditures.

If nominated and elected I will do as I have always endeavored to do, give my entire time in performing the duties of this office and guarding the interests of the people as their Attorney. I will be found in my office on every official day in the year, rendering justice to every person.

As legal advisor of the fiscal court I will, if nominated and elected, be cautious in advising it concerning the expenditures of the hard earned money of the taxpayers.

I will diligently investigate and procure indictments against alleged violators of the law without favor.

I respectfully solicit the support of every republican voter, and promise, if elected, a cautious and efficient handling of the County Attorney's affairs.

Yours Truly,
EDWARD D. STONE.

To Whom It May Concern.

We the undersigned colleagues of Representative Edward D. Stone, during the two last sessions of the Legislature of Kentucky, state that he stood firmly against the useless and unfair squandering of the people's money; he stood for the tax payers and laborers and opposed every species of corruption. We recommend his faithfulness, his honesty and ability, and endorse him as an efficient servant of the people, worthy of any trust that may be imposed upon him.

H. A. Purnell.

THE FARMER'S FRIEND

"The people should rule," is the slogan of that popular republican, Edward D. Stone, who is a candidate for County Attorney of Crittenden County, in the Republican Primary, Saturday, August 4th, 1917.

Mr. Stone is widely known and stands high as the truest type of a gentleman in this county. He is a deserving young man and enters the race, not as a candidate of any faction, but as a true Republican, willing and ready to serve the people of the great county of Crittenden, and render to every person a square deal, if made their County Attorney.

He is recognized as one of the most logical and forceful speakers in this and adjoining counties. He has very ably led two campaigns for the legislature in this district, in which he was elected their representative. In those campaigns he placed this District in the Republican column. For four years in the law making body in this state he gave the very best service possible, serving the people beyond that of any other Representative ever sent from this district. He is now offering his services to the people of his home county.

He fulfilled every promise made by him to the people, as their Representative, and made a record of which the people of this county are proud, and if elected County Attorney he will fulfill the duties of the office.

Mr. Stone was educated in the Cumberland University, at Lebanon, Tenn., where he graduated with high honors in the class 1912, receiving the degree of LL.B. He was granted license to practice law in May, 1913. —A. Supporter.—Adv.

JOEL A. FARMER For JAILER

I am a candidate for the office of Jailer, subject to the action of the Republican Party at the Primary Election, Aug. 4th, 1917.

I have been fighting the battles of the Republican Party for more than forty years and when there has been a long hard trip to make and they would call for volunteers I have always answered that call and worked early and late.

I will appreciate your support.

Yours V
Joel A. Farmer.

FLUORSPAR AND ITS ASSOCIATES

History Of Its Discovery In Marion Ky., What It Is And What It Is Used For.

Fluor spar, one of the hand-some minerals that nature produces and more especially so, when with the brilliant colors of nature's gems, the emerald, topaz, ruby, etc.

This mineral has been known under the same name for centuries and on referring to all of the older English encyclopedias, about the only information that was given was that it was found in Derbyshire, England, and was called there Blue John. It was stated that statuettes were carved from it and were very beautiful, naturally it must contain more silica and alumina than American product because our Spar is much too brittle to carve.

The English Fluor Spar is not near the purity of the American, while much of the latter will average about 90 per cent the English will analyze from 55 to 75 per cent.

In early days this Spar was combined with lead and possibly tin and was separated for the two latter metals, the Spar being considered of no use. This has left very large dumps which within the last ten years has been shipped to America and sold at a price that we could not meet.

In fact, to-day, were it not for the war Fluor Spar could be delivered on the railroad platform in Derbyshire for 25 cents per long ton. The transfer to the holds of vessel bound for Philadelphia and sold there at \$3.00 to \$4.00 per ton while our freight to the same city would be double.

After considerable agitation a tariff of \$3.00 per ton was placed on this mineral which greatly helps our Fluor Spar miners. This tariff was afterwards cut in too but by that time the greater value of the American product was recognized by every user.

Fluor Spar is to-day found in small quantities in the states of New Hampshire, Arizona and New Mexico, while the great commercial product is mined and shipped from the Kentucky-Illinois Fluor Spar regions and they only consist of part of two counties, Crittenden and Livingston in Kentucky and Hardin and Pope County, in Illinois.

Germany has produced very high grade Fluor Spar but of no great tonnage. It is found there in a town named Fluor and personally I will be obliged to any one who has access to the larger libraries where a german gazette can be obtained if possible for the tonnage that the town produces sending the information to the Crittenden Record Press for Publication.

Fluorine the active principal of Fluor Spar is widely scattered in plants through out the world.

The Uses Of Fluor Spar.

From the handsome plant of Christensen Son's at Akron, Ohio, where many thousand dozens of marbles are made daily to the great banks of open hearth steel plants which number today many hundred, filled in between with the great Aluminum and Enamel plants. Fluor spar has come into great request and where possibly 70 tons was used in industries thirty years ago.

ASKED FOR VOTERS SUPPORT

Gene Clark Appeals To Voters For Support In Race For Sheriff.

Having heretofore made my announcement for sheriff subject to the action of the Republican voters of the county, I wish to say to them, that I was born and raised on a farm, and have worked on a farm all my life. On account of being kept busy with my crop I have not been able to see all of the voters, and want them to know that I am the farmers friend, know the hardships of farm life and how to sympathize with all laboring people.

As the time is now too short to see you all in person, please remember that no candidate will appreciate your vote and influence more than I will. While I sign my name as C. E. Clark, most people know me as Gene Clark.

I have always been a Republican and done what I could for the success of the party. Should I be nominated, I shall use every honorable effort to be elected in November. Should I lose the nomination, I am a Republican still, and will roll up my sleeves and do what I can for the nominee.

C. E. Clark.

Memorial Wanted.

Dear Editor:

Will you allow me a little space in your paper to call the attention of the Sunday Schools, especially, and to the public generally, to a matter that I believe should have our attention.

Several months ago, R. M. Franks, passed to his reward, after having served the Sunday Schools of this county for many years; brother Franks was a poor man financially and for fourteen years was Sunday School County President; he was through all these years faithful and efficient and served without compensation and out of love for the work.

To day there is no monument to mark his last resting place and I believe the Sunday Schools of the County should respect and appreciate his services see to it that a suitable monument is erected to his grave. I suggest that we as individual members of the various Sunday Schools of the County, start a subscription for this purpose and that be urged to contribute any from ten cents to one dollar this purpose; it will not cost one very much and will be a well deserved mark of appreciation.

This idea was suggested by me at the funeral of Brother Franks and the family has understood that it was my intention to put this matter before the Sunday Schools of the County and for this reason perhaps no monument has been erected by the family.

Let us start this matter now, I want to head the list with a subscription of \$1.00. Report the amount you want to contribute and I will arrange with some one in Marion to act as treasurer and hold the funds until a sufficient amount has been raised to erect the Monument. From time to time subscriptions will be reported in the Record press.

Alliance With Great Britain Would Be of Value to United States

By PROF. AMOS S. HERSHEY of Indiana University

An alliance with Great Britain would make much easier the preservation of our liberties and vital interests and the development of our national policies in America as well as in the far East.

The British empire is largely a confederacy of free peoples with sentiments and institutions similar to our own, and, except in certain matters of trade, our mutual interests are not seriously antagonistic.

Where such interests do conflict, as perhaps in Latin America, they are readily capable of compromise or adjustment.

The fundamental mutual interests of both the British empire and the United States are those usually denominated in our presidential campaigns as "peace and prosperity."

In the main, both peoples are materialistic and materialism. In both countries no slogans appeal with more force than those of the "full dinner pail" and national security with a view to the enjoyment of "all the comforts of home."

War is generally regarded by the Anglo-Saxon world not merely as a useless survival of a barbaric past, but, as a rule, an unwelcome disturbance of business, of games, and of all the other peaceful vocations and avocations in which our citizens as well as British subjects delight.

Another mutual and perhaps sentimental (though no less vital) interest is that described by such terms or phrases as democracy, the right of self-government, western liberalism, the political and economic freedom of the individual (including the emancipation of woman), etc.

If we desire the triumph of such ideals over Prussian militarism, autocracy and organization, the best way would seem to be to form an alliance with the British empire and act in conjunction with the newly awakened democracies of Russia and China, as well as with the older democracies of France and Italy.

Besides, we cannot ignore the fact that England is an important American power, not overlook the vast significance of our past, present and future relations with Canada.

Finally, we should not fail to consider our mutual interests in the far East, particularly in China. In common with Great Britain, we have an enormous stake, commercial and otherwise, in the future development of the Chinese empire.

Poultry Raisers of United States Can Aid in Feeding the World

By E. E. RICHARDS
President American Poultry Association

It is up to the United States, the world's greatest, richest and most resourceful nation, not only to look after the welfare of her own citizens, but to give aid and assistance in supplying food to countless thousands of suffering humanity in the torn and stricken war zone. The great agricultural resources of America must prepare to assume this burden. Every one of us must do his bit. Every acre, every nook and corner must bear its share.

It is lucky that in poultry we can produce the cheapest and most quickly producing meat of all the various sources of our meat supply.

It is a well-known fact that the available supply of meat products is today the lowest in our country, per capita, in the history of the United States. To meet the extremely dangerous condition we have within ourselves a wonderful opportunity of aiding what may prove to be a worldwide cry for food. Let us all join enthusiastically in putting forth now every effort to meet the demand that is sure to come for untold quantities of foodstuffs. Never in the history of the world will there be a greater demand than in the next 24 months.

The margin of profit on the production of eggs and poultry for meat is far in excess of the percentage of profit in normal times. But aside from the question of profit, we Americans must look at the situation from a philanthropic and humanitarian standpoint, and each and every one "do his bit." Let us try to be a factor in the production of an extra hundred million pounds of poultry meat, which is less than one pound additional for each man, woman and child in the United States.

The United States department of agriculture has just issued an estimate that upwards of seven hundred millions of dollars is the annual tribute paid by Americans to the garbage can. Why not convert this into feed to produce poultry and eggs?

Every home can have a self-supporting and profitable flock in the back yard by converting the offal from the table and kitchen into the very choicest of poultry feed. Why such an astounding waste, an utter extravagance that costs us nearly seven dollars for every man, woman and child in the United States? Let every home have a neat poultry house and a few well-kept, profitable fowls.

We Must Know Meaning of Americanism Before We Can Teach It to Others

By HONORE WILLISIE, Editor and Author

Before women can teach children the meaning of Americanism, they must first understand it themselves.

I hope more women understand it than men—that is, than men I've asked. I have asked men in almost every walk of life, and what do you suppose I got as an average answer? That an American was a man who knew how to get rich quick.

It's up to the American woman to think out for herself what it means to be an American before she attempts to teach her own or someone else's children what it means. I wish that we might have an American litany—a national creed that mothers and teachers could give our children. I wish that every American child might be brought to understand the state of mind of the men who wrote and signed our Declaration of Independence.

I believe women are coming forward splendidly through their organizations and offering their services, but I believe that service can and will be even more completely mobilized.

There is one thing women must not forget—that the most important thing they can mobilize is their sex. Now more than in times of peace women owe it to their country to bear children, and to bear them intelligently. And when they have borne them, it is their sacred duty to bring them up in a full understanding of the ideals on which our fathers built this nation.

Opinion of United States Supreme Court

Rendered on Bank Overdrafts:

"A usage to allow customers to overdraw and have their checks and notes charged up without present funds in the bank, stripped of all technical disguise, the usage and practice thus attempted to be sacred, as a usage and practice to measure the funds of the bank; and to continue at the withdrawal of said, without any security, in favor of certain privileged persons. Such a usage and practice is surely a manifest departure from the duty, both of the directors and cashier, to receive any counterbalance in a court of justice. It could not be supported by any vote of the directors, however formal; and therefore, whatever done by the cashier, is at its own peril and on the responsibility of himself and his associates. It is hereby but void and every executive duty is hereby declared."

Engineers To Build Up

The American engineer regiments that are to undertake the rehabilitation of France have the most pleasant task in the entire service of the war. The fighting forces must kill and burn and destroy. The medical branch must heal wounds and cover whatever breaches it can. But the engineers will do constructive work. They are the builders of the future. Their activities will not be merely temporary in the case of the army engineers. They will rebuild the ruined cities and villages and reconstruct the public works that have perished before German vandalism and the natural devastation of war. Organized as a military department, their labor is really that of peace. It is hard service but its very organization suggests the peace and rebuilding and renewed prosperity that must come in the not distant future. (Radio Journal News.)

Farmer Stung To Death

When He Plows Up Bees.

Fairfield, Ia., July 25.—Henry Hook, farmer, living near Pleasant Plains, was stung to death by a swarm of bees when his plow stirred up the nest. The bees were in the act of swarming.

BLUE RHUBARB ROOT, BLACK ROOT, MAY APPLE ROOT, SENNA LEAVES AND PEPSIN

In LAX-FOS the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or irritate the stomach. One bottle will move LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

Left Out.

The girl who complains that she is left out, probably does not realize that she is bringing a tacit accusation against herself but such is the case. People who are sweet and sunny, full of good will and helpfulness, are not likely to be left out. They are such acquisitions that they are in demand.

If you are left out of social gatherings, just recall the last few you attended, and see if you can find out why. Did you by any chance hold yourself aloof? Were you a sort of wet blanket?

What is LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA

A Digestive Liquid Laxative, Cathartic and Liver Tonic. Contains Cascara Bark, Blue Flag Root, Rhubarb Root, Black Root, May Apple Root, Senna Leaves and Pepsin. Combines strength with palatable aromatic taste. Does not gripe. 50c.

Her Advantage.

The business woman has it all over the rest of them. She can size up financial prospects pretty accurately before marrying them.

Name Of Barkley.

Frankfort, Ky., July 25.—Speaking in the opera house here Monday night, W. J. Bryan made a bitter attack on the distillery, brewery and saloon business of the State and Nation.

He declared that Kentucky, which had so long furnished the poison, the intoxicating liquors, has redeemed itself by furnishing the antidote in the amendment of Congressman Barkley to the food control bill, prohibiting the use of grain for alcoholic beverages during the war.

The name of Congressman Barkley, he asserted, would be remembered when the saloon would be forgotten.

Did you have a superior air as if the entertainment your hostess had provided did not appeal to you? Were you, by any chance, somewhat caustic in your criticism of your fellow guests? Very frequently a careful review of your own attitude in the past makes clear why you are left out now.

It is not a pleasant feeling by any means, that of being left out, and perhaps for the time being it is not made any pleasant by the reflection that it is your own fault. But the girl who will face the issue squarely and acknowledge that her being left out is something for which she herself is to blame has a better chance not to keep on being left out than if she shut her eyes to the truth. Be so cheery, so entertaining, so appreciative, so full of sparkle and sweetness and charm that the last thing anybody will think of is leaving you out.—Onward.

One Drop

Bourbon Poultry Remedy

It cures all the ailments of the drinking water cure and prevents all the ailments of the drinking water cure. It cures all the ailments of the drinking water cure and prevents all the ailments of the drinking water cure. It cures all the ailments of the drinking water cure and prevents all the ailments of the drinking water cure.

For Sale in Marion Ky., by Haynes & Taylor.

CRITTENDEN COUNTY COURT

Regular Term, June 11th, 1917
Present And Presiding John G. Asher, Judge.

Luther Vaughn, et al., Appellants, vs. John G. Asher, et al., Respondents. No. 11, and Marion Nos. 2 and 3, voting precincts and Sheridan No. 2, and Marion No. 2, voting precincts.

This day came R. E. Belt, M. E. Shewmaker, A. Shewmaker, H. L. Belt, R. L. Drury, Luther Vaughn, E. C. Hodge, Scott Robertson, Ed Simpson, Ed Simpson and Ellis Akers, citizens and voters in the Ford's Ferry precinct, Crittenden County, Kentucky, and B. L. Hodge and Ellis Martin, citizens and voters in Sheridan No. 2, voting precinct, Crittenden County, Kentucky, and filed in court a petition for a change in the boundary of the Ford's Ferry No. 11 and Marion Nos. 2 and 3 voting precincts and Sheridan No. 2 and Marion No. 2, voting precincts, together with affidavits of Luther Vaughn showing that the proper notices had been posted according to the requirements of the Statute of Kentucky in such case made and provided, and said petition being in words as follows, to-wit:

"June 11th, 1917
To the Hon. Jno. G. Asher, County Judge of Crittenden County, Kentucky:

We, your humble petitioners, R. E. Belt, M. E. Shewmaker, A. Shewmaker, H. L. Belt, R. L. Drury, Luther Vaughn, E. C. Hodge, Scott Robertson, Ed Simpson, Ed Simpson and Ellis Akers, citizens and voters in the Ford's Ferry precinct, Crittenden County, Kentucky, and R. L. Hodge and Ellis Martin, voters of Sheridan No. 2, Crittenden County, Kentucky, respectfully petition and pray your Honorable Court to make an order changing the line between Marion No. 3 and Ford's Ferry precinct No. 11, and Sheridan No. 2, so as to include R. L. Drury, Luther Vaughn, M. E. Shewmaker and A. Shewmaker and farms upon which each of them lives, in Marion precinct No. 3; and R. E. Belt, H. L. Belt, E. C. Hodge, Scott Robertson, Ed Simpson, Bill Robertson, Ellis Akers and Joe Allen Gass and the farms upon which each of them lives, into Marion precinct No. 2. And also R. L. Hodge and Ellis Martin from Sheridan No. 2 to Marion precinct No. 2. And for such order we will ever pray.

Luther Vaughn H. L. Belt
R. E. Belt E. C. Hodge
M. E. Shewmaker R. L. Hodge
A. Shewmaker Ellis Akers
The Court being sufficiently advised, it is therefore ordered that said change of said boundary of said voting precincts be and the same is hereby granted as set out in said above mentioned petition. It is further ordered that notice of said change shall be published in the Crittenden Record-Press at least four weeks before election.

A copy attested:
J. E. GUESS, Clerk.

ATEXAS WONDER

THE Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for testimonials from this and other states. Dr. E. W. Hall, 208 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

17

PERSONALS

Dr. J. G. Wolfe and family, of Ashland, Ky., were here in their big car yesterday enroute home from a visit to relatives in Crittenden and Livingston counties. Dr. Wolfe formerly lived here, and reports a fine practise.

Princeton Leader.

Men whose names were drawn at the selective draft last Saturday, July 21st, 1917, May volunteer in Company F, 3rd Kentucky Infantry by applying to W. T. Black, Marion, Ky., or Lieutenant Fozwell, Providence, Ky., within the next five days.

Ellis Ordway, of Crayne, who is now some where in France with Gen. Pershing's army, wrote July 1st to his parents, Mr. and Mrs. W. H. Ordway, that all was well with him and that so far he had been in no zone of danger. This is the first message from across the waters so far as we know that has come from any of our boys.

NEW Meat Market

I have opened a Meat Market in the brick building in the rear of Farmers Band, and will have on hand at all times, after 4 p. m. today, a choice stock of fresh meats. I have an experienced meat cutter, and will endeavor to give the people of Marion first class meat and satisfactory service.

J. R. SOWDERS, Propr.
Marion Meat Market
Marion, Ky., July 25th., 1917.

The Thirty Thousand Campaign.

Eleven prominent business men in the State are heading a movement to raise \$30,000 to provide a learner's outfit for each of the 30,000 young men in the State registered for Army Service who cannot read or write. A learner's outfit costs \$1.00. 30,000 people in the State will be asked to give \$1.00 each on or before August 4th.

The eleven men have the title of Commander and are as follows.

Commander	First	Dist.
W. A. Berry, Paducah	Second	"
Geo. E. Wilson, Owensboro	Third	"
Lawrence B. Finn, Franklin	Fourth	"
Harry A. Sommers, Elizabethtown	Fifth	"
Bennett H. Young, Louisville	Sixth	"
Claud B. Terrell, " "	Seventh	"
J. W. Porter, " "	Eighth	"
Frank P. James, " "	Ninth	"
J. W. M. Stewart, " "	Tenth	"
Judge Walter S. Hawkins, " "	Eleventh	"
Lieut. Gov. Jas. D. Black, " "		

The organization is military with a Captain in each County and a Lieutenant in each precinct. Every County in the State will have part in this Campaign. Every Congressional District has been apportioned the following amounts:

District	Amount
First District	\$2500
Second District	3000
Third District	2000
Fourth District	2500
Fifth District	No report
Sixth District	3000
Seventh District	3000
Eight District	3000
Ninth District	2500
Tenth District	1750
Eleventh District	1750

Let our District be the first to come up with its part. We cannot all go to war, but we can all help the soldier who goes to fight for us. Get in touch with your County Captain and your Precinct Lieutenant and help him all you can.

Henderson, Ky. July 31, Aug. 1, 2, 3, 4.

C. C. Glens, General Manager
Great Array of Races, Ring Shows, Floral Hall Exhibits.

12 Big Free Attractions Daily
Reynold Mighty Midway and Carnival Aggregation.
Carrying 12 Big Shows and 50 concessions, Over 1300 People. Royal Italian Band. Something Doing All the Time. Reduced Railroad Rates

Mrs. C. C. Underwood, a sister of the Hon. A. H. Cardin of this county, who formerly resided at Caruthersville, Mo., way down on the Mississippi river, has removed to Hot Springs, Ark., for the benefit of her health, and is now comfortably settled in her new home.

Mrs. Walter Travis, of Henderson, who was the guest of her father, City Marshall G. E. Boston, left for home last week to bid her husband goodbye as he has enlisted in the hospital corps and will leave soon to join his regiment and to go to France. Mrs. Travis and little daughter, Vista, will probably locate here during his absence in the army.

Where there's a will there's a way to meet the submarine menace.

Gradually the recognition spreads that this is no dilettante war.

Some of our wisest nature lovers are eating dandelion greens.

Don't find fault with your government. It is the best in the world.

Anyway, Americans are now learning to distinguish a number of national flags.

Fewer gems are being imported. Bartenders will please go outside and weep.

Amateur gardening is, of course, creating considerable of a stirring about.

Free speech is guaranteed under the American Constitution, but not free sedition.

For warm weather, sandals would conserve shoe leather and improve the human foot.

America is going to win this war because there will be no America if it loses the war.

Now is the time to get out the cookbook and learn 17 ways of making delicious corn bread.

There is a great demand in the army for cooks—which shows how domestic modern armies are.

War is abolishing the cuff on trousers, and we should be thankful even for small blessings.

"Turks have taken Mush," says a headline. Well, that's a pretty good antidote for food shortage.

To think that one should live to see the time when hard at 25 cents a pound is advertised as a "bargain!"

For one thing, this war has successfully squelched the oldest inhabitant. He cannot recall any bigger war.

Gambling in food is gambling in lives and in human liberty. Penitentiary stripes for food gamblers!

Another factor in the popularity of the "Marseillaise" is that nobody over here pretends to know the words.

Nearly everybody writes poetry at some time, and most of it is like ukulele playing by an expert chauffeur.

A Missouri hen is laying eggs that look like walnuts—and by Christmas they may look like a nickel apiece.

With more or less equanimity the back-yard gardener receives the news that there is a shortage of tin cans.

Anybody who would steal seed potatoes from the ground in this crisis would drop bombs on sleeping infants.

The only thing left for the unfortunate man who doesn't come within any of the war taxation schemes is to enlist.

With everybody working, America is going to produce as never before; and the country will astonish the world.

The war will not be without its blessings if we learn how to control the production and distribution of our foodstuffs.

By looking more closely the astronomers may be able to see whether there is a can tied to the tail of that comet.

One's bit is perhaps small to science. But we shall have to the come to make huge bites when the time comes.

Thrice is he armed who has a sack of flour, a bushel of spuds and a side of bacon cached in the dark recesses of his cellar.

One good way to keep them get of a garden is never to let them get any bigger after they have killed their identity.

Not eating more food than you want will not necessarily conserve the supply; but not eating more than you really need will.

The proposal to kill all cats as an economic war measure would lead to a rat jubilee convention at plague germ headquarters.

The United States needs 2,000 veterinary surgeons, who will rank as lieutenants. We should think they'd rank as horse jockeys.

The inexperienced and too ardent wielder of the hoe may have found by this time that there's a crying demand for a safety hoe.

The Kaiser is right in a way. His man certainly have done "deeds such as never before have been recorded in the history of all times."

The suggestion of a submersible, merchant ship which can duck under water in case of danger is a good idea. Another is a ship that can jump into the air.

Thanks to excellent phonograph records, the resourceful patriot's knowledge of the national anthems may be readily advanced to a satisfactory standard.

Distinguished Visit

Hon. Gus Thomas, Judge of the Ky. court of Appeals, was in the city yesterday. Judge Thomas represents this judicial district. He is taking advantage of his vacation to make a trip over the district as he expects to be a candidate for reelection next year. He was elected two years ago to fill out the unexpired time of Judge T. J. Nunn.

She Has Kentucky Grit

Mrs. Lee Dorroh and daughters attended the chautauqua at Elk City last week and while there Miss Thelma Lee joined the Red Cross society, and says that now she will knit for the soldiers instead of sewing for stupid dolls.

The Hammon Oklahoma Advocate

Wanted, Tie Makers.

On the H. C. Love land near Hardin's Knob I want tie makers at once. E. S. Love, 7282tp Clay, Ky.

Corn For Sale.

I have corn for sale at my farm. A. H. Cardin, Route 2, box 38, Marion, Ky.

MARRIAGES

Saturday night at Shady Grove while Rev. V. M. Henry was preaching a sermon on "Why halt ye between two opinions" two handsome couples Archie Harliff and Miss Bessie Horning and Owen Beard and Miss Mary Coleman all of the Shady Grove section left the church. No one knew that they no longer halted between two opinions but had decided to go to Elizabethtown, Ill., and be married. Each couple had come to the same opinion at the same time and they decided to make the trip in one automobile. The sermon had done its work. They did not tell their parents even of their intentions. The knot was tied and they all returned home Sunday morning to break the news to the home folks and be given. There was no objection in either case, and it was not an elopement, but just a trip for the novelty of the thing. The Press extends congratulations and best wishes.

Dr. Gilchrist

Nice office, modern equipments. Instruments for examining conditions inside as well as outside of the eye. Glasses scientifically fitted. Prices reasonable. Office: Paris Bldg. Marion, Ky. Below Farmers Bank.

RED OUT.

There are many a farmer's wife sits on the porch in the growing shadows of a summer evening, knowing to the full what it is to feel tired out; as if there was no more of effort left in her. But how was how she got there? It is not the work she has done, but the tiredness of her body. It is not the work she has done, but the tiredness of her body. It is not the work she has done, but the tiredness of her body.

Sick women, thousands of them right here in Kentucky, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, builds up the system, and makes the body strong and healthy.

How To Run A Summer Carnival.

The July Woman's Home Companion says: "A successful carnival for the benefit of a church in your city has recently been held by a group of members who live on one square. The porches and lawns on both sides of the street were decorated with Japanese lanterns and colored lights."

Sheriff's Sale For Taxes.

By virtue of taxes due the Sheriff of Crittenden county, for the year 1916, amounting to the sum of \$21.45, I, or one of my deputies, will on Monday, the 13th day of August, 1917, between the hours of 10 o'clock a. m., and 2 o'clock p. m., at Court-house door in Crittenden county, Kentucky, expose to PUBLIC SALE, to the highest bidder, for cash in hand, the following property (or so much thereof as may be necessary to satisfy the amount of taxes due aforesaid and costs) to-wit:

One sewing machine, one set of tools and chest, one Chinese cabinet. Same being the property of Mrs. J. C. Tarvin.

Our Strength In Crops.

Of the world's principal agricultural crops the United States produce:
Three-fourths of the corn.
One fifth of the wheat.
One fourth of the oats.
One eighth of the barley.
One fiftieth of the rye.
One sixteenth of the potatoes.
Three fifths of the cotton.
One fourth of the flaxseed.
One third of the tobacco.
One tenth of the sugar.
One fourth of the hops.

The United States ranks first in the production of corn, wheat, oats, cotton, tobacco; second for barley and flax; fourth for sugar and fifth for rye and potatoes.

Morganfield Sun.

Patriots can fight or farm or make munitions.

And we must teach even our potato plants to shoot.

If marriage were ordered by conscription what a howl would go up.

Either dig potatoes or dig trenches. You will fit in one place or the other.

Uncle Sam has now become the generous uncle of more than half the planet.

Most Americans can pronounce Lens as easily as a Frenchman can, but not the same way.

There's many an amateur gardener willing to do the planting if his wife will do the weeding.

The summer vacation might be spent romantically on some farm knocking off potato bugs.

Now that the price of food has become prohibitive, we shall have to live on rice and vegetable soup.

The regulation of food prices should offer a bonus to the man who is willing to eat the cold-storage eggs.

Economists predict that in a short time assertions that Americans over-eat will be absolutely groundless.

One industry which is to be severely discouraged in the general agricultural boom is that of bomb planting.

Now that they are shelling the "Star-Spangled Banner" in Paris we might try our threats on the "Marseillaise."

The crops of oats are promised and next winter will be gloomy for the man who never learned to love porridge.

Any single man who wants to be of real service to his country without wearing his uniform should take a job on a farm.

Another good scheme is to take the money you save by raising a backyard garden and invest it in the new government bonds.

"Officials Probe Spies," shrieks a headline. Truly, espionage is being widely indulged in at the present time.

It is reported that clothing is short in Germany, but probably not any shorter than some are wearing them in this country.

The waste in food must be stopped, says an exchange. In other words there must be no more swell swill in your garbage can.

Another way to get yourself properly prepared for garden activities is to learn the German name for some of the common weeds.

One may not be able to get into the hero class, but nearly everyone can raise a cabbage or something equally useful to feed a hero.

The lessons in economy the people of the United States are now learning will be useful in times of peace as well as in times of war.

It is reported that the largest settlement in Greenland has 800 inhabitants. Isn't it strange how many people will go to some places?

Down on the farm is not to be such a journey to take as in ordinary times. Now, it may be just a stop or two down into the back yard.

The marriage shaker has been critically decided. Instead of escaping military service he must serve his country and support a wife besides.

The secret service men now seem to have the situation so well in hand that the plot-revealing talent may again concentrate attention on the movies.

Students of currency systems foresee a situation when it may be difficult to measure the intrinsic value of a potato in ordinary terms of cash.

There are going to be more or less spies in this country, but not as many as will be suspected. In war time one can see a ghost behind nearly every tree.

According to those who don't know, all the vegetables difficult to grow successfully are just the things for this year's beginners to start back but farms with.

Perhaps the expert special writer of high brow stuff who has discovered that men are pretty much alike the world over has had his attention drawn to the war news.

Perhaps it is true that one-third of the telephone operators in this country become brides before they have worked five months, but how long have you heard the same voice on your line?

The great trouble in informing women for practical service is going to be the fact that they must all wear hats alike. But grant, indeed, will be their patriotism if that has no deterrent effect?

A British aviator on duty in East Africa reports that he distinctly suffered the odor of lilies while flying 8,000 feet above a valley. Two to one he "found" heavy flogging off "Coco Cod."

Louisville, Ky.

"Germany can win if we hold out." Chancellor von Bethmann-Hollweg.

Here is a man speaking who has much to do with the destiny of a mighty nation. And he uses a word which we Americans have come to know as the saddest and most tinged in the English language. A few months ago the Chancellor did not speak thus of the ultimate outcome of the war. Then it was that he said, "Germany will win." Now he says "Germany can win if we hold out." The Chancellor knows better than anyone else in Germany that he is talking through his ears. In the sense that he uses "if" he forecasts the possibility of defeat and which is now looming as a reality. The handwriting is on the wall. The Chancellor correctly interprets it. So does the Kaiser and all the rest of the war lords.

There is no "if" in the prophecy, now world-wide, that peace is an eventually not far distant. And may God hasten the day. — Courier.

When you feel discouraged, nervous, tired, worried or despondent it is a sure sign you need **MOTT'S NERVE PILLS**. They renew the normal vigor and make life worth living. **Price 50c a bottle by druggists. WILLIAMS WPC. CO., Props., Cleveland, Ohio.** Sold by J. H. Orme.

Bordeaux Mixture For Potato Bugs

If potato bugs become troublesome apply Bordeaux mixture. It is prepared as follows: Four pounds of good stone lime, four pounds of copper sulfate, these to be dissolved separately each in twenty-five gallons of water, then pour the two together into a fifty-gallon barrel and keep the mixture well agitated. If the potato beetle is troublesome add three pounds of arsenate of lead.

Drives Out Malaria, Builds Up System

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, cures the blood, and builds up the system. A true tonic. For adults and children. 50c.

What a Man Should Have at Thirty-five.

Jack Lait says in the August American Magazine: "At thirty-five a citizen should have a wife and children; he should have a permanent trade, business or profession; he should own a home; he should have money in bank and a commensurate endowment policy half paid off; he should be through with experimenting and on his way, realizing the dream, walking over the paths he laid in the road-building years, hiking on his second wind beyond the point to which he laboriously strained his way theretofore.

"Youth is a tonic and its man-

ifestations are grit and gameness, hope and yearning, ambition and hard tackling, energy and pep and go has new recovery and gay times and extravagance. But youth is a large commodity priceless to men, cheap to buy.

"He's only a boy," says the world, and he goes at fifty cents on the dollar.

"Therefore youth is the time to my st, and sometimes later comes the time to collect. Somewhere is the turning peak. I think it is marked '35.'"

American Bread For Sammies In Three Days.

American Training Camp in France, July 18. — (By the Associated Press) — The American troops are still eating the dark French bread which is being paid for with American flour but within three days bakeries will have been established and the ration will change to white bread with a heavy crust. The American army will then be the only one in Europe eating white bread.

The Terrors Of English.

It is an S and an I and an O and a U. With an X at the end it spells S. And an E and a Y and E spell I. Play what is a speller to do? Then if also an S and an I and a G. And a H E D spell side. There's nothing much left for a speller to do. But to commit, you say, yes! — Hotel Register.

Czar's Property Confiscated.

Petrograd, July 25. — Property valued at \$700,000,000, from which Nicholas Romanoff, formerly Emperor of Russia, enjoyed the revenues for life only, have been taken from him by the provisional government. A special commission of the government has been discussing whether land, palaces and other property owned by Nicholas, and estimated to be worth \$48,000,000 shall be sequestered by the State. This commission also considered whether the property of the great dukes and duchesses, worth about \$210,000,000 should be seized for the benefit of the public. The value of all the property owned by the former Emperor or members of the former royal house of Russia is estimated by Prof. Okunief at \$958,000,000.

In addition the professor asserts, Nicholas still has on deposit in the Bank of \$35,000,000 placed here years ago in provision for the rainy day which now has come. The late Grand Duke Alexis, uncle to the former Emperor Nicholas, left \$10,000,000 on deposit in the Bank of England.

How to Know, Prevent and Cure Quickly

COURTSHIP WITHOUT KISSING.

A Chicago doctor is quoted as advising a class of inquiring young men to proceed with their courtship without the traditional holding of hands and without kissing. He lays down a distinct program to be followed, with a formula for popping the question. The chances are he knows about as much about this as he does about the fourth dimension, says Omaha Bee. How Dan Cupid must have sneered as he listened to the doctor telling the boys how to arrange matters with the only girl in all the world. A formula for asking a girl to become your wife? What married man is there who honestly can recount what he did say on that great occasion? Or what married woman can tell exactly what answer she gave? The expostive delirium that overtakes the lover at this crisis in his courtship obliterated all distinct recollections. He may wake up later on, but for the time all is "not such stuff as dreams are made of." As for laughter and kissing and holding of hands well, what is a girl for? Marriage is a very real thing in life, but very few of them are made in courtship.

There is nothing accidental about the course of "courtship" which makes "courtship" a science. It is a science, a thing, but we often hear other wise, educated people using this childish form of the negative in the singular, people who would not think of using the negative of it as singular. "She don't" and "he don't" are just as deplorable to the cultivated ear as "she do" and "he do" would be; and it is astonishing that anyone of the most elementary grammatical knowledge could be so deaf to the values of English speech as to use them. Still the mistake is annoyingly common, says Ohio State Journal. Recently we even found an actor, playing the part of a gentleman of refinement, say "She don't love me," "right." And if actors cannot at least speak our mother tongue grammatically, what are they good for? Remember it is just as easy to be right and say "she does not" or "doesn't."

Of course the Germans have done a little damage to the peace ships of the nations and probably will continue on their destructive way—for yet a little while, says Los Angeles Times. However, the combined navies of an hellish world will soon put a stop to all that, and in the meantime—well no doubt will ever be able to get into very close connection with a southern California garden.

The extreme of patriotism, which like the extreme of justice, is just the opposite, was reached by an enthusiastic Londoner who threatened to kill the mother of his ten children because she made his home too comfortable. To satisfy his insatiable desire for sacrifice he ought to be taken out into the barred zone and set adrift to hunt for submarines.

Cottage cheese, say the government experts, is a good substitute for meat. It is also toothsome, and if you like the mildest of onion flavors, a few chives cut up and sprinkled over it adds to its savor. Whatever else has happened to the garden, it has been the weather for chives.

Even those without the talent of curiosity would like to be able to guess where the public officials have been living for two or three years who still talk about food waste among the mass of the American people—or any other.

The Scriptural doctrine that it is more blessed to give than to receive rarely ever evokes cheers when it is applied to money, but arouses uproarious enthusiasm in the matter of advice.

By having a garden to look after you will not only be doing your country a service but you will also have less time to find fault with the men who are conducting the war.

American surgeons who have always desired a "course in Europe" can at last gratify their wish. One thousand of them are needed in France.

Another thing we have to content with in the United States is the notion that the war was all over the day we declared ourselves into it.

All that the U-boat destroyer recipe now lacks is the part that answers to the introductory instructions for cooking a hare.

Two amendments to American table manners are now in order—the elimination of "don't like" and "can't eat."

We might accomplish much more were we able to instill a little patriotism into the back-yard cat.

It's patriotic to take no more on your plate than you can eat at a single session.

You are also helping your country when you lend your line to your neighbor.

KENTUCKY MAN IS KILLED IN FRANCE

Son of Former President of L. & N. Killed While Sitting in His Ambulance.

Hopkinsville, Ky., July 22. — The news that G. Fred Norton, formerly of this county and son of the late Eastern Norton, who was for many years president of the Louisville & Nashville railroad, had been killed on the battlefields of France by a bomb dropped from an airplane, was received here with deepest regret. He has several relatives and many friends.

This is the first time that any one connected with Hopkinsville has been named in the death lists from Europe, and it therefore brings a deeper realization of the tragic side of the war to the people here.

Mr. Norton was 40 years of age and was born in Hopkinsville in 1876 while his parents were visiting relatives here. Later he made his home in Christian county for a considerable period, his brother, Will Norton, at that time owning and operating one the finest farms in the southern part of the county. He was a nephew of Mrs. Fannie Venable and Mrs. Jefferson of this city. During his stay here he was a young man of much popularity and buoyant spirits and he has a host of friends still living here.

He left New York on May 26 and had been in service in France only a few days. He was driver of an American ambulance in No. 1 and was sitting in his driver's seat watching the Germans retreat after attempting a raid.

A German airplane flew over and dropped a bomb which fell in front and close to Norton's ambulance, and when it exploded he was killed instantly by the flying pieces.

His home was at Goshen, N. Y., and he was a farmer.

Files Cure In 6 to 14 Days
Costs nothing and relieves money if fails. **GUARANTY** fails to cure any case of itching, blood, hemorrhoids or protruding piles in 14 days. The first application gives ease and relief. See

Coming Along.

Talk of the country, it's coming along. Help it a bit with a smile and a song. Feel that it's a trust it and say it right out.

Uncle Sam knows what he's talking about. Talk of the country, You better be sure It's going to grow, And it's bound to endure.

Talk of the country, don't feel the alarm Of those who are seeking to do it some harm. Just you believe that it's right, and you'll find There are lots of your neighbors exactly your mind.

Talk of the country, No use to fear The taunt of the cynic, The scold and the sneer.

Talk of the country, it's fine as you'd wish; Building and humming, its old flag a-swish, Its heart in communion with right and with truth, Strong in each muscle and sound in each tooth.

Talk of the country, It's coming along Help it a bit With a smile and a song.
